Summary

Software Engineer with 2+ years of experience building production web and mobile applications using React, React Native, Next.js, TypeScript, and modern frontend technologies. Experienced in building and optimizing production apps with 10K+ downloads for learners, with strengths in Android delivery architecture, SDK integrations, performance optimization, observability, API-driven features, and end-to-end release delivery.

Work Experience

Dnyandeep Foundation Centre Remote

Software Engineer 1 (Mobile) Apr 2025 - Oct 2026

• Owned end-to-end development, native builds, and production releases for **DFC (10K+ downloads)** and **AptiBooster (1K+ downloads)**, driving Play Store deployments and app maintenance.
• Engineered ground-up TypeScript rewrite of DFC, cutting crash rate by **10.36% vs. pre-revamp baseline (to 0.1%)**; unified student, teacher, and admin roles with offline caching on a single Play listing.
• Profiled startup via Firebase Performance, cutting production **p90 app start from 894 ms to 794 ms**; built contextual Crashlytics logging and Axios interceptors to harden crash recovery.
• Built AptiBooster post-test analysis UX with peer comparison and downloadable reports; wired TanStack Query with selective MMKV persistence for responsive offline caching.

IKIOR Services Pvt Ltd Remote

Software Engineer Intern May 2023 - Nov 2023

• Developed period-tracking hero module with interactive cycle calendar, health logs, and daily insights.
• Built Reels-inspired video feed using `react-native-video` and responsive Health, Care, and Sleep modules.
Skills used : React Native, React.js, Redux Toolkit, Context API, JavaScript, Figma

Projects

DFC Live on Play

• Modularized Zoom SDK into an on-demand Dynamic Feature Module, slashing base delivery from **177 MB to 15.9 MB** by isolating **161 MB** of native binaries with background install and recovery.
• Shrank base production release bundle from **21.02 MB to 15.9 MB (24.36% reduction)** via ProGuard/R8 optimizations, eliminating unused native libraries and reducing idle JS heap by ∼**5 MB**.
Skills used : React Native, TypeScript, Android, Firebase, Google Play Console, TanStack Query

AptiBooster Live on Play

• Built stateful live test engine tracking question revisits and timer telemetry for peer scoring; integrated Razorpay SDK for subscriptions unlocking full syllabus beyond a 2-chapter trial.
• Shrank production release from **23.7 MB to 20.4 MB** (−13.9%) via ProGuard/R8, and resolved low-end Home cold-start freeze via deferred loaders and streamlined startup (Home JS CPU **29.1%** → **2.8%**, ∼**108 MB lower PSS**).
Skills used : React Native, TanStack Query, MMKV, Razorpay SDK, Microsoft Clarity

Certificate Generator | Try live GitHub

• Developed full-stack certificate management platform processing **400+ certificate requests** and generating **466+ certificates**; integrated RESTful CRUD workflows, Google Drive API cloud storage, and responsive Tailwind CSS dashboard.
Skills used : React.js, Node.js, Express.js, MongoDB, Google Drive API, Tailwind CSS

Technical Skills

Frontend :	React.js, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, HTML, CSS
Backend :	Node.js, Express.js, REST APIs, Java
Database :	MongoDB, MySQL
Tools & Platforms :	Git, GitHub, Figma, Postman, Android Studio, Firebase
Familiar with :	Spring Boot, Hibernate

Education

Centre for Development of Advanced Computing, Noida Sep 2022 - Mar 2023
Post Graduate Diploma in Advanced Computing | Certificate

SRMCEM, Lucknow Jul 2018 - Jun 2022
Bachelor of Technology

Certifications

• **JavaScript Algorithms and Data Structures** | *freeCodeCamp*
• **Core Java Basics** | *upGrad*
